Mr. Starkey, Officer Rubalcava, Sgt Geaney and everyone else,

The situation on Tamarind Ave is getting worse and worse. We know you heard that before, and you are tired of us.

I will be honest, I feel the last meeting we had at your police station was designed to shut us up and to give yourself a break. That was surely accomplished. Everyone gave up pretty much.

Our little dead corner, in front of 1762 Tamarind Ave. is becoming a little village. The plants that we spend money are getting destroyed, each day a little more. There were 3 tents in that little corner last night, and many nights before, even 4 tents. The right side of the vehicle that was parked there was taking a little room in the entrance to the tent. They did not care to put their tent totally against the vehicle being parked there.

I guess it is OK that the property is being destroyed and that we can not clean our street, nor live in a clean environment, as we would like to. We have to give up on trying... Anything we say and ask is going to be nicely replied to, which we appreciate and we know the answer - you did everything you could.

Bottom line is: 'We need to adjust and accept'.

Everyone is asking themselves, 'What is the pointing writing anymore?! That will not do any good anyway'.

I can't even imagine, not to do what police officer tells me to do. And if I do, I would end up in jail very fast. But I am just a citizen that is trying very hard to be a decent citizen of this country, work hard, earn my living and do everything I can to help others.

Unfortunately, I can not help this situation. I can only say, 'May the Blessings Be and surrender'. Nobody has been seriously hurt, so it is OK...

It is OK to live in dirt, as long as they don't hurt us. It is OK that we can not invite our friends or biz. partners to our home anymore or let them even pass through our street and meet with them somewhere outside. We need to just adjust and accept...

Respectfully,
Amalisha HuEck

I've also voiced graffiti is starting to spread its way across our neighborhood. I haven't seen anything done about it, but have seen more graffiti added on since then.

And speaking of the little corner of planters we have at the Cul de sac at Tamarind, no one was ever allowed to stay there during the time of Sgt Geaney and the latter time of Officer Sevdalian. We spent a lot for this little corner to tidy it up and beautify it. We just hope it gets due respect as other little gardens around the vicinity do. Case in point: the little garden built with the help of the Church of Scientology near corner Bronson between Tamarind and Carlos by the freeway. We saw a patrol right away preventing a homeless woman about to set up her living quarters there. If only our law enforcement could do the same for us? If you let them even start to set up there and be there for the next few days, they would feel entrenched in the space and claim it as their own and stay there for good.

We also wonder why you were able to clear the little triangle in the vicinity of Hollywood, Prospect and Vermont by the Starbucks, Rite Aid and Bank of America, which used to have a village of homeless' tents and wares? And can't do it for us here at Carlos and Tamarind? Inasmuch as you don't allow these transients in affluent residential areas like Hollywood Hills in Franklin, Los Feliz and elsewhere where the rich live?

We know you wouldn't allow the tents likewise in the places like Hollywood and Highland and other places where tourists go? So, where does the demarcation and exact difference lie?

P.S.

FYI, Tamarind Ave, the little street at the Cul de sac, was clear of all tents during the latter part of Officer Sevdalian's term and almost the whole duration of Sgt Geaney's term as Lead here in our area. Can't we do the same under Officer Rubalcava's term? If there's a will, there's a way. Where have the daily patrols in our area gone? There used to be daily patrols here with Sgt Geaney personally seeing to it that everything is clear and clean.

I know Laura. Well, this is their neighborhood.

The other day I was exiting the parking lot, forgot something, so park my vehicle on the side for a moment, went through the front entrance into the building.

On my way up, one of our neighbors, from the tent on that corner was walking her dog in front of our building, letting the puppy go on the clean grass...

She said to me politely, 'Good Morning neighbor!'.

I politely answered back, 'Good Morning to You!'.

The challenge I am facing these days is that my biz is suffering because I can not invite anyone to my home. I have to invite them to coffee shops and restaurants.

Because of everything, I am not doing that well with my biz and cannot afford all those expenses. So, I am slowly soaring down.

I am truly lost with everything. I do sympathize with their situation greatly but if they are pulling us down as well, this whole thing is really becoming a super challenge, and true attention should be put into it.

Blessings to All of You!

P.s. more than \$1,000 in damage is felony vandalism at the least. Tents are blocking the sidewalk all over. They are back to breaking bottles in the street, etc. We should be able to get some movement on at least two out of those three action items.

Everyone,

It may be easier to answers peoples questions and address concerns over the phone. I can always be reached on my cell phone, 213.261.1545.

I am going to try to answer a few of the common themes in this email thread:

The meeting Officer Rubalcava and I had at the office on Fountain was not an attempt to make you feel you can not bring up your concerns with us. Many of the issues we discussed at that meeting we are facing not only in Hollywood, but in Los Angeles, the state of California, and many large Cities throughout the country right now.

I know it is very difficult when it is right outside your front door or next to where you would like to park your car but no longer can.

Graffiti is something the City is very good at removing. When it is reported it is almost always painted over within 24 hours. You can report it by sending me a picture with an address or by using the MyLA311 app.

Regarding the work of the previous SLO's in the area. Detective Geaney is still in Hollywood and working in your neighborhood on a regular basis. In her new role she oversees the CORE team at the Hollywood Division and they focus on homelessness in Hollywood. I did not know Officer Sevdalian , but I can say that Officer Rubalcava is working very hard on addressing your concerns. He is on Carlos and Tamarind all the time addressing your concerns.

Until the City has enough shelter beds to house the 33,000 people sleeping on the sidewalk every night we have to work within the constraints the Federal Courts have placed on us. In Hollywood we have recently opened A Bridge Home Site for people experiencing homelessness and women's shelter. The City has 15 more Bridge Home Site in construction and planning. We also have over 7,000 permanent supportive housing units that have been approved. We are moving in the right direction, in 2017 we housed over 17,000 people.

I notice you've done a very good job but not mentioning a single thing that's actually enforceable other than graffiti. Earn your money, and detail what is actually actionable from your viewpoint.

Mr. Starkey,

As you and everyone else might have noticed, I have kept my silence since the last meeting you called. I already knew the real motive behind those meetings. When Officer Rubalcava reached out and met with us the first time, I was handed the responsibility, which I accepted reluctantly, of being a block captain. Never did I know that the real meaning of 'block' was to block any noise from the general population.

You see, what we are asking here had been done by the previous Field Deputy, Dan Halden, once or twice before. You could see the whole stretch of Tamarind Avenue from the freeway to Carlos Avenue tent free. We even went to his office to ask for big long planters in that corner of the cul-de-sac. No funding was the answer we got. All we got from that meeting with Dan and Marisol was an expressed permission to do it ourselves. We went ahead putting up those planters which at one point looked very much like the attached. The whole project didn't come cheap but it worked for a very long time. Until now, on your watch. You have allowed your police force to remain in handcuffs and shackles unable to enforce any of our laws protecting our basic rights. Police enforcement around in the area can be considered spotty and selective at times. A few days ago, my wife observed a transient trying to claim the space where a big box planter is on Bronson Avenue on the freeway bridge. A patrol car was observed staying with the transient until she cleared the area of all her belongings. I tell you, there's double standard going on right in front of our building right now and you refuse to even acknowledge it. If you honestly believe that you cannot do what we are asking here, then say it to our face and stop wasting our time. But please find that someone for us even if it means the mayor himself.

Until then, I am renewing my vow of silence never to be heard from again.

THANK YOU AND GOOD LUCK TO ALL OF US!

Today is our little Tamarind Street cleaning day—Monday 8-10 a.m. This is how our street looks at this time — about 11:25 a.m. Monday, June 3rd, 2019.

We checked our cameras. No cleaning truck came on scheduled day and time. Has the City really abandoned our poor little street? We used to be in a beautiful clean neighborhood...

Just got home to 1762, as I turned the corner around the wall was greeted by a naked woman who had apparently just urinated directly in front of our door. She was apologetic as she was putting her clothes back on, but then aggressively demanded that I let her in the pool. Clearly mentally unstable so I did not engage.

Please check security cameras.

I don't know how reporting this will make a difference, and the woman has already left. Just highlighting that our street continues to be a toilet.

Yesterday, a friend of mine from Ventura called, warning me to be careful.

Apparently, on channel 4 - during the evening news, we were mentioned...

They were talking about our streets - Carlos and Tamarind, and the residents there being overwhelmed with the homeless situation and the dirt and insanity that we have to deal with.

They also mentioned how much we have to fight for getting our streets back...

Thank you to whoever put this on.

It is greatly appreciated.

I just called the police at about 7:30am to report these two men who were trying to pick the lock to our front gate as. I caught them off guard and they took off. I waited to see where they went and they went through the fence on Carlos and seem to be living in the other side of our building.

I'll try to take a better picture but this is the only one I could get in the moment.

I am waiting for the police now, but just a heads up to be extra careful today.

Hello All,

There seems to be an issue in LA regarding keeping the peace. It's been lingering for a bit now.

Like I noted a couple of days ago, the police responded and left quickly. The BID responded and left quickly. Everyone is afraid to take in anyone. Everyone is afraid to make legitimate arrests.

No one really cares and in front of an audience of Angelenos, people were shocked how the guy in the photo below was let go. Striking people, striking cars and jumping into traffic is now ok and legal in LA.

Also another guy broke my planter as seen below. I have so many incidents to report, we've called many times, but nothing ever happens. Who's responsible for my planter, broken windows (at four now), Deli break in, tossed broken patio chairs, and more.

Who's responsible when a guy like this strikes a customer.

The city went out of its way to make us operate in the black with its legislation, and I now also have to be our own security? I'm not insured for this.

Subject: Re: EXTERNAL: Re: Homeless Issue

Hello Everyone,

Senior Lead Officer Guerra is back, and we are working together to schedule a cleanup with LA Sanitation. I was at this location this morning conducting enforcement with citations for the ADA violations for blocking the entire sidewalk, and getting as much voluntary compliance as possible with getting the homeless community to break down the tents. Keep in mind that with this current weather, we are not legally allowed to ask them to break their tents down when it is colder than 50 degrees or when it is raining.

In regards to a long term solution, we are doing our best to provide homeless outreach as well, and working closely with outreach workers from the Los Angeles Homeless Services Authority in order to specifically place the members at this homeless encampment into a new transitional housing facility called "A Bridge Home" in Hollywood. We have received great support from the community in this project, and can thank Mayor Garcetti and Councilman Mitch O'Farrell's office for making this project a reality. The facility is set for completion in the next 4 weeks, and we will keep you updated when we have more information.

Thank you for your patience and understanding.

Regards,

Officer Gabriel Ruiz
LAPD Hollywood Division
Coordinated Outreach
Resource & Enforcement (CORE) Unit

wrote:

Hello all,

After 3 years of dealing with this on-going problem, we have learned that there is no long term solution in sight that the city can offer. We have hired private full time security patrol, made our own sidewalk plant boxes, and routinely schedule weekly sidewalk power wash cleanings, putting the required 3 day notices up the minute we see any homeless encampment developing. The only solution is to be diligent and not wait until a camp is fully entrenched to begin looking for solutions. We call police and district media security multiple times per week to keep the encampments annoyed with the hassle. The issue unfortunately seems like one that will persist indefinitely under current legislation.

Good Morning Officer Ruiz and all

Are there any updates on the homeless issue on the corner of Melrose and Lillian Way, we are getting multiple customer complaints about this encampment activities, drugs, sex, people are changing their clothing on plain site, they're blocking the sidewalk, so no one can walk on that side, their tents are up day and night, there's a lot of trash on the area including needles, they're using our single restroom as a shower and is becoming a problem and inconvenience to our customers

Your help with this encampment is appreciated

Good Afternoon,

My name is Officer Gabriel Ruiz and I am filling in for Senior Lead Officer Ed Guerra while he is out of the office for the next couple of months. We are aware of the situation at this location and have been doing our best to conduct outreach and enforcement for several weeks now. I have notified our LAPD West Bureau HOPE team, and they will do our best to respond tomorrow with a Rapid Response Team to do another clean up. I will also reach out to Dan Halden to follow up on Thursday for an additional cleanup of trash and bulky items.

Thank you for your patience. If you have any further questions, please feel free to let me know and I will do my best to follow up with you.

Regards,
Officer Gabriel Ruiz
LAPD Hollywood Division
Acting Senior Lead Officer

Thank you, we appreciate the support. Is there anything we can do to get the regulations changed so that it becomes illegal to live on a sidewalk in a residential area?

We have a power wash scheduled for 4pm tomorrow, and the encampment (while offering us a fresh pavilions pastry!!) said no problem, they will just move across the street.

Pavilions, it might be good for you guys to schedule one tomorrow afternoon as well or they will just move to your side.

Update:

I've added Martin Bravo to this chain, who can provide info about the house on Lillian. We just spoke on the phone and he has demolition planned as well as tree removal permitted for next week.

I also spoke to Daniel at Red, who is recovering from a motorcycle accident and has been a bit out of commission. He is still on top of the camp at Red Lot D.

We have planter boxes arriving this week which we plan to put throughout the neighborhood in probably locations to discourage set up.

Good morning all,

Is there an update on how we can stop the encampment being provided with fresh, untouched food?

This morning they were seen with a whole box of untouched food. I'm sure this is one of the main reasons they will not leave.

Pavilions: can you please investigate how/why this is happening, and how we can stop it? The previous idea of locking the dumpsters sounds like a good start.

Thanks,

Hey everyone,

I just wanted to send out an email to the thread again as it's been a month now since we've spoken about the improvements we want to make in the area. I own the buildings on Waring in between Cahuenga and Lillian. What are the updates?

We've expressed multiple times that we're prepared financially and time-wise to lend our efforts and improve the area.

RED STUDIOS- Would you all be open to planting succulents exactly like the photo attached on Waring (South Side of your building) between Cahuenga and Lillian? This is right across the street from our two buildings and figured it would be way nicer to have than the dead grass currently over there. We'd be happy to help get this done with a thumbs up from your team.

PAVILIONS- Did we end up getting that really large tree trimmed down?

Did we end up moving forward on the rocks and the build of the colored planters as well? Happy to start in any way with those and putting them around our property.

Let's keep the push forward, it feels like everyone gets excited to do something and then nothing happens.
LET'S GOOOOOO!!!!

[REDACTED] wrote:

Hello everyone,

First, I wanted to thank everyone for taking the time to either call or come in to our studio for Friday's meeting. To Officer Guerra, my sincere appreciation for your commitment to the public and our concerns, I feel privileged to have you working with us. To Shannon Geaney, thank you for your support of your team and Officer Guerra, he said many great things about your leadership.

For those on the conference call, I do apologize for the snafu for getting everything setup, we won't have that issue next time. If it was hard of hearing and you were not able to get all the details from Officer Guerra's report, basically LAPD cannot encroach on the 'property' of the homeless except for the scheduled monthly clean-up. They have their hands tied as far as solving this problem of homeless, it has been and will continue to be an ever present struggle for them. Power washing in his experience only cleans the area of excrement and filth making it better living conditions once the homeless decide to return. We, as neighboring businesses, have the ability to come together, to be creative and produce lasting deterrents

from homeless encamping around our area.

Quixote has made their own planters (see attached pictures) and placed them outside of their business on the sidewalk where most homeless were residing. They made 12 for roughly \$2000 total. These were filled with succulents and cacti, of which John Vargas and fellow worker Mando mentioned made up the bulk of the total cost for the planters. Officer Guerra made it clear that this was still only a temporary fix though it would be better than power washing while pooling more resources to beautify the actual street (see attached picture).

What I am proposing is for us to start making these planters (with a slight design deviation from the ones pictured) and placing them in hot spots of homeless activity. Places where there is minimal foot traffic and vacant lots/buildings (south of Waring and Lillian, near Pavilions). This will serve as a placeholder while we all aim for the in-street beautification. Officer Guerra and the Friday group saw this is an opportunity for creativity as well. We can erect works of art or community pieces that everyone can contribute to. Even with these planters, we can include volunteers to participate and get kids involved with the artwork that can revitalize our streets to look colorful and vibrant as well as push homeless away from our businesses.

RED Studios will be working closely with Quixote, Boys & Girls Club and Khaos Digital to make the beginning push in this initiative. We are reaching out to local nurseries and other friends in the community to help donate to our cause, if you have anyone who can contribute or donate, it may benefit them as a tax deduction! Once we have placed our planters/artwork/otherwise, we will update with pictures and a report on what worked and what did not. Now is the time we can show our neighborhood, our community and our city that we can make a difference if we band together as one, we can effect positive change.

Please, send ideas and ways to involve/attract more. On top of the constant communication via email and phone calls, I would like us all to meet again in about a month and a half (depending on schedules) to share all the progress we've made.

Sincerely,

Daniel

I can meet this Friday, I do have a meeting at 1pm, but any time before that or after say 2 pm is great for me and Khaos.

Thank you everyone!

Hey all, I'm happy we've all come together to solve this problem. Did we decide on a time we can all get together?

Based on Edwin's schedule can we all do Friday? Will that work?

On Tue, Aug 28, 2018 at 3:29 PM, [REDACTED] wrote:
Over the past 3 years power washing has been the only solution we have found to have any effect at all. We've been trying to get trees approved in front of our lots for beautification purposes, but the city has held up approval for months. Also, it seems trees providing shade is actually an attraction in some cases rather than a deterrent.

Hi All,](mailto:S2229C90@pavilions.com)

I know the pressure washing is a temp solution, but for now is our only option, I am working on setting up everything for tomorrow.

Rebecca I was told the notice needs to be up 24 hours in advance.

Thursday will work to meet for me as well.

Subject: Re: EXTERNAL: Re: Homeless Issue

All,

I am on a scheduled day off tomorrow and usually to schedule a pressure was I'd like more than a days notice.

Also, Although Dan Halden is out sick today he was able to coordinate so resources regarding this new encampment. He submitted a request for sanitation to come out and help us. LAPD can come out and write citations and provide outreach. But as you can tell that only does so much and the problem does not go away. We have to wait for sanitation to come out and that usually takes a month.

Unfortunately we are in the displacement business. All the subjects at this location used to be on Cahuenga and Eleanor and the Gower corridor south of Santa Monica.

I am available Thursday and Friday to discuss ideas how to deter them from coming back to this location. Our efforts in these areas pushed them to this location.

I personally don't feel pressure washing helps and it hasn't worked in other areas. I also noticed the property is vacant (743), the location next to it under construction and the trees over grown and providing a lot of shade.

This issue is too sensitive to discuss over email, too many moving parts and we need the help from everyone. If you're available to meet Thursday or Friday please let me know.

Senior Lead Officer Eddie Guerra

Please include us on any correspondence as we too are keen to help resolve the issue.

The sidewalk outside 743 Lillian is covered with human excrement, furniture and used needles.

Laura & Eddie, is there any way that we can have the Western side of Lillian Way where they are now based pressure washed tomorrow when you do the Pavilions side? I am happy to post signs this afternoon and we can contribute to the cost.

Please advise.

Thank you,

Rebecca

Subject: Re: EXTERNAL: Re: Homeless Issue

Hi All,

I have reached out to Dan Halden myself by phone and email, I will talk to him tomorrow Wednesday afternoon.

I have contacted our corporate office and they are trying to help as well, I have posted signs on our Lillian way sidewalk to be pressure washed tomorrow, I am contacting LAPD today to hopefully have them here tomorrow for the side walk cleaning since I heard we can not touch the homeless property because is on public place.

Please let me know when would be a good time to meet, I would do everything on our power to help with this situation

Has anyone received response from Pavilions management? Camp on Lillian is growing exponentially and their assistance would be very helpful.

redstudioshollywood.com>> wrote:

Good morning Everyone,

I made my way over to Pavilions and spoke with the supervisor, Jessica, and she will reach out to the store manager, Laura, so they can find a good time to meet with all of us.

Please see the attached photos for the work that was executed thanks to the planning and diligence of Officer Guerra and his team, thank you! We have put caution tape as a temporary fix and it will stand for a time, but let us see if we can schedule to meet sometime within the coming weeks.

My team is drafting a letter of intent to send out to local nurseries (or business of similar nature) to inquire about donations to help our community's cause and the public. Possibly a tax write off, could be beneficial for all parties. Just an idea of where we can all start our foods for thought.

Hope everyone is having a productive Tuesday.

Best,

Daniel

Hello Mike and fellow business community members,

I am adding Melinda and Mark from Khaos Digital (located at the corner of Waring and [Cahuenga, 6007](#)) as Mark was present while we spoke with Officer Guerra, his supervisor Shannon Geaney, and Deputy City Attorney Steve Houchin about a proposed plan about beautification with our community's streets.

Tomorrow, the city's sanitation trucks are coming to clean up the area on Waring just west of Cahuenga. Our studio is going to place cones, red and yellow caution tape to section off the space during the clean up. This is a temporary fix as we move forward with plans to gather the necessary materials and aesthetically improve that space while deterring more encampments from returning.

I would very much like (time and schedules permitting) to have a small, community forum in our diner with most (ideally all) surrounding businesses in attendance. We can discuss the plan to pool our resources together and help each other beautify a section of our streets at a time so we and the families that walk their kids to and from the Boys & Girls Club do not have to feel uneasy where we all work and/or live.

In the meantime, I will work with my management and with Melinda and Mark of Khaos Digital to come up with our options to begin the beautification of Waring and Cahuenga. Updates once work is complete will
